spear line

Company profile

Practical trade. Bigger possibilities.

Spear Line connects trading, automotive, supply and logistics needs with a broader vision for enterprise and opportunity.

Who we are

Business begins with a better understanding.

Spear Line starts with practical requirements for vehicles, goods and transport, then makes space for opportunities in materials, wellness, real estate and hospitality.

Each division has its own maturity and scope. Our approach remains the same: understand the need, clarify the details and agree the next step before making commitments.

Contact lines

Listen first.

The requirement comes before the recommendation. Your priorities, destination and timing set the direction.

Make the details matter.

Specifications, quantities and arrangements deserve a proper conversation before the next step.

Keep it clear.

Scope, pricing and commitments should be understood and confirmed in writing.

Six divisions

One company, six directions.

Each division states its present stage. Concepts are shown as concepts; nothing here claims stock, permits, facilities or partnerships.

Enquiry-led discussed and confirmed per enquiry **Developing** scope being confirmed **Concept** under consideration

Developing

01 / Construction & sourcing

Building Materials & Equipment

Explore requirements for building materials, tools and equipment through a considered sourcing conversation.

Enquiry-led

02 / Vehicles & mobility

Motors & Automotive

Vehicle trading and sourcing conversations shaped around your preferred model, destination and budget.

Enquiry-led

03 / Business supply

Food & Beverages

Discuss product lists, quantities, preferred packaging and delivery requirements.

Concept

04 / Nonclinical concepts

Fitness, Health & Wellness

An emerging area of the Spear Line vision, focused on fitness and everyday wellbeing opportunities.

Concept

05 / Property opportunities

Real Estate Services

An area of development for property-related services, subject to confirmation of the operating model.

Developing

06 / Places & experiences

Leisure, Entertainment & Hospitality

Explore the ideas taking shape around hospitality, leisure and the upcoming Spear Line Bar.

Core service paths

Where the work begins.

Vehicle sales & trading

Vehicles

From everyday journeys to the demands of business. Tell us the vehicle you have in mind, your budget and where you need it.

Bring us

- The vehicle model or type you have in mind
- Your budget and currency (optional)
- Where the vehicle needs to go

Foodstuffs & beverages

Supplies

Foodstuffs and beverages, shaped around your requirements. Start with your product list, quantities and delivery destination.

Bring us

- Products and specifications
- Quantities and packaging
- Delivery destination
- Preferred timing

Transport & coordination

Logistics

A clear brief makes a better journey. Share the cargo, pickup point, destination and timing to discuss the right transport arrangements.

Bring us

- Pickup location
- Delivery destination
- Cargo and estimated load
- Preferred timing

01

Tell us what you need

Choose vehicles, supplies or logistics. Share the essentials: the requirement, destination, timing and the best way to reach you.

02

Work through the details

Product specifications, quantities, vehicle preferences or cargo details help define the scope.

03

Discuss availability and arrangements

Availability and arrangements are discussed for your enquiry, using the contact details you provided.

04

Agree the next move

Confirm the scope, pricing and arrangements in writing before making a commitment.

Beyond the core portfolio

Bring us the requirement.

We can discuss these adjacent requests and assess the right supplier, delivery route and permissions before proposing any work. This list does not claim current stock or licensed operations.

- Construction materials and equipment
- Office furniture and equipment
- ICT and machinery
- Agricultural inputs
- Food distribution
- Last-mile delivery
- Humanitarian procurement
- Mining supplies
- Fuel and energy requirements

A word from the founder

Joh Ayom

> **“Our idea is simple: anyone with a vehicle to find, a load to move or supplies to plan should be able to start with one clear conversation.”**
>
> Joh Ayom, Founder

We listen first, put the details in writing and keep the next step clear.

Spear Line’s six-division direction grows one well-defined service at a time.

A proposed capability

Digital that has a purpose.

Nine areas to explore with THE 97 World as a proposed collaborator. Scope, pricing and delivery responsibilities are agreed before work is offered. This is not a statement of an executed partnership.

01

Websites & online presence

Responsive business websites, landing pages, company profiles and search foundations.

02

Brand identity & creative

Visual identities, business documents, presentations and campaign design.

03

Booking & business systems

Scoping for bookings, ticketing, QR check-in, dashboards and customer portals.

04

Content & video production

Campaign ideas, motion design, promotional edits and social media content.

05

Marketing & advertising

Professional social profiles, advertising creative and measurable campaign planning.

06

Automation & infrastructure

Enquiry workflows, reporting, business email, domains, hosting and support by agreement.

07

Commerce & payments

Online catalogues, ordering flows and payment integration scoped to the business and local providers.

08

Search & analytics

Search foundations, measurement plans, dashboards and practical improvements based on visitor behavior.

09

AI & customer workflows

Carefully scoped assistants, information retrieval and customer support workflows with human oversight.

Next step

Let's move something forward.

A vehicle, a business requirement, an opportunity worth discussing. Share the requirement, destination and timing, and the next step is a conversation about scope and arrangements.
